### Inquiry into the transformative potential of our own Type Structure

Deepening Spiritual Awareness is focused on the transformative potential of your own type structure by 'skilful means' which build an inner capacity to recognise and relax emotional passions as they arise- thus "converting vice to virtue" - the pure life force that sustains us.

The key objectives are to:

1.

Provide an inquiry and induction to the nine cognitive and emotional filters, and their role in spiritual evolution.

2.

Identify each type's strengths and resistance to relaxing long-standing habits.

3.

Develop an awareness of our inner contradictions and learning to be present with them. To let them go.

### Join the Narrative Enneagram Community

These spiritual activities will be debriefed from different type perspectives through panel interviews in the Narrative Tradition, short deductions, inner practices, somatic exercises and small groups.
